Detailed Action

1.) The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2.) Claims 46-62 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-45 of U.S. Patent No. 6,114,657, over claims 1-24 of U.S. Patent No. 6,476,355, and over claims 1-15 of U.S. Patent No. 6,781,095. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims are broader than the claims in patents 6,114,657 and 6,476,355 and are therefore obvious thereover. The claims are unpatentable over the claims in patent no. 6,781,095 because: the limitations in application claims 46, 49, 50, and 52 calling for defining a range are considered to be obvious over respective patented claims 1, 3, 4, and 6 because the patented claims would have obviously included some sort of definition of the range set forth therein; application claims 55, 58, and 60 are broader than corresponding patented claims 9, 11, and 13 and are therefore obvious thereover.

Applicant is advised that if he files a terminal disclaimer to overcome this rejection, he must disclaim ALL THREE of the aforementioned patents.
